

Get all your child's medical records in one place. Help power research. Fully remote, sign up in minutes.

Join our community on Citizen

We are working together to help patients participate in important research efforts by sharing their de-identified health information. Unlock the power of your child's healthcare records with Citizen today!

Get all your medical records.

- Citizen gets your medical records from all providers in your secure, digital profile.
- Your records will include doctors' notes, testing, and imaging files
- Choose to share with family, caregivers, or your care team.

We are here if you have questions.

Accelerate Research.

You have the option to share your de-identified data to help power research. Help researchers:

- Advance understanding of the condition and design better clinical trials
- Understand how the condition changes
- Use data (instead of actual patients) in trials
- Accelerate discovery of new treatment options for patients
