Explanation

RESEARCH SUPPORT:

The GLUT1 Deficiency Foundation supports research to advance understanding of GLUT1 Deficiency and accelerate the development of improved treatments. The Foundation awards seed grants to investigators whose projects align with patient-driven priorities identified through our collaborative Research Compass. In 2025, G1DF funded four research projects totaling \$167,110. Funds from one previously awarded grant (\$17,768) were returned following the investigator's relocation. Additional research investments supported the development of open-source research tools, participation in scientific meetings, and the Foundation's first in-person Research Workshop. G1DF completed its PCORI-funded Research Ready Series, which provided research fundamentals training to patients, families, and other stakeholders. The G1DF also continues to collect and store biospecimens for research use, gather patient-reported data through an ongoing natural history study, and build a collaborative research network to drive progress.

We retain copies of your records and our work papers from your engagement for up to seven years, after which these documents will be destroyed.

If management has not selected to e-file the returns with our office, management will be solely responsible to file the returns with the appropriate taxing authorities. The tax matters representative should review all tax-return documents carefully before signing them.
